Some Pointed Questions

Does your urine contain any sediment? Is the lower part of your back sore, weak and lame? Does your urine have a whitish, milky color? Is there a smarting or scalding sensation in passing it? Does it pain you to hold it? Do you desire to urinate often, especially at night?

If you have any of these symptoms, your Kidneys are diseased and your life is in danger. More people die of such disorders than are killed in wars

Dr. David Kennedy's Favorite Remedy is a direct and sure cure. It goes straight to the seat of diseases in the Kidneys, Bladder and Blood. It hunts out and drives from the system all the impurities that cause pain in the back, Stone in the Bladder, Bright's Disease, Urinary Troubles, and diseases of the Stomach and Liver. It acts at once. There is no long waiting to see if it will help.

"For years I suffered with my Kidneys," writes THOMAS QUACKENBUSH, of Pittsfield, Mass. "The pain in my back was so severe at times that I was obliged to keep to my bed. I suffered awfully when passing water, which was often discolored with blood. I used almost everything in the shape of medicine, but nothing seemed to help me. One day I got a bottle of *Dr. David Kennedy's Favorite Remedy*, and used it but a little while when I found much relief. My back became all right, my kidneys, my whole system built up and passed from me whole worn, and I now feel like a new man in every way. I consider it a great medicine, as it has done wonders for me. My wife used it for female complaint, and thinks it's the finest medicine in the world."

WILL KEEP THEM.

No Philippines to Be Given Back to Spain.

MAY DECIDE TO PAY FOR THEM.

Administration Said to Be Considering the Payment of a $40,000,000 Indemnity to Cover Philippine Debt—Final Negotiations.

WASHINGTON, Oct. 29.—President McKinley is convinced that there is no way in which the United States can escape the responsibility of taking all the Philippines. He has arrived at this conclusion after mature deliberation. He at first favored keeping nothing more than a military and naval base and thought that the United States should in no event retain more than the island of Luson. When the American peace commissioners left for Paris, it was not contemplated that they should demand from the Spanish government more than the absolute cession of this one island to the United States and a reversionary interest in the other islands of the group.

It has been found, however, that there were many practical difficulties in the way of such a solution, not the least of them being the evident impossibility of Spain's re-establishing authority over the remaining islands without a prolonged and a bloody struggle with the insurgent forces.

Information, coupled with the opinion of military and naval commanders familiar with the Philippine situation, has led the president to believe that Admiral Dewey's destruction of the Spanish fleet in Manila bay and General Merritt's capture of Manila annihilated Spanish sovereignty in the islands, and it became a duty of the United States to establish a better government than the one which was destroyed by American arms.

The president has been deluged with letters from all parts of the United States and with resolutions from commercial and religious bodies urging that American sovereignty should be maintained wherever the flag has been planted. In this same line the president's recent western trip was a revelation to him and the members of his cabinet who accompanied him. The farther he went west the stronger he found the sentiment in favor of holding all the Philippines and establishing an American government over them.

Secretary Gage, who went west before the president and who went as far as Denver, found the sentiment there even stronger than in Omaha. In all the meetings of the cabinet before the peace commissioners left for Paris Secretary Gage was the most conservative of all the president's advisers. He doubted the wisdom of taking even as much as the island of Luzon and would have been glad if a way had been found of relinquishing all the Philippines. Since his return from the west, however, he is an advocate of holding all the islands.

Although it has been finally determined that the Philippines shall be retained, the peace commissioners may be given considerable latitude as to the terms on which they are to be retained.

The Philippines are regarded as standing on a different basis from Cuba and Porto Rico, and some of the members of the administration believe that if all the islands are taken Spain should be given some measure of compensation for them, especially as the Philippines have been by far the most valuable of all her colonies.

It can be said that it is quite probable that the American commissioners will be authorized to go so far as to offer to pledge the United States to assume the Philippine debt, or at least such portion of it as has been expended on public works in the islands. The exact amount of the debt that could properly be charged to the United States under such an arrangement could not be accurately stated without a fuller analysis of this debt than as yet has been made, but it is believed that it will be less than $40,000,000. A high administration official said last night that it might be decided that the Spanish government should receive an actual cash payment for the Philippines in addition to the assumption of the debt or a part of it by the United States.

Commission's Work Nearly Done.

MADRID, Oct. 29.—The rumor goes that the Paris peace commission will terminate its labors in four days. Senor Sagasta said last night on leaving the palace that he thought the work of the commission would be finished next week.

COLONEL WARING BETTER.

Little Doubt, However, That He Has Yellow Fever.

NEW YORK, Oct. 29.—Health Officer Doty visited Colonel George E. Waring at his home on Second avenue in company with Dr. Stimpson, the attending physician, yesterday afternoon. Dr. Doty found the patient apparently much better and his temperature very near normal. Dr. Doty, when seen at quarantine last evening, said:

"I believe it is proper to regard the case as one of yellow fever, although it is too early to make any prognosis of the case."

Immediately on being notified of the illness of Colonel Waring Thursday afternoon Health Officer Doty ordered the steamer Yucatan, on which Colonel Waring came from Cuba, to be thoroughly disinfected. The work was begun Thursday afternoon and continued until its completion yesterday afternoon. The staterooms and crew's quarters were then duly disinfected and the vessel was ordered released.

Volunteer Officers Resign.

WASHINGTON, Oct. 29.—Lieutenant John H. Ish, Jr., Tenth United States infantry, and Major Lewis Seaman, One Hundred and First New York infantry, have resigned.

FASHODA DISPUTE.

London Thinks Marchand Will Advise Withdrawal.

LONDON, Oct. 29. — The morning newspaper editorials regard Major Marchand's movement from Fashoda to Khartum as indicative of a yielding on the specific question in controversy, although the position is officially unaltered.

It is assumed that he will push on to Cairo in order to be in direct communication with the French government and that on reaching there he will represent to Paris the impossibility of remaining at Fashoda under existing conditions and will ask authority to withdraw his entire force.

The Times says:

"The desire ascribed to France to raise a general discussion ought to be in itself sufficient answer to the ridiculous rumor circulated in ill informed quarters yesterday that we intended to play into her hands by declaring a protectorate over Egypt. Nothing could be more unlikely at the present moment."

The Daily News takes it for granted that Major Marchand will come to Paris.

The first cabinet minister to speak publicly since the cabinet council on Thursday is Lord Balfour of Burleigh, secretary for Scotland, who, when addressing a meeting Thursday evening at Galashiels, Scotland, declared that it was the settled policy of the government that the valley of the Nile must be Egyptian territory.

Earl Spencer, first lord of the admiralty in Lord Rosebery's government, in a strong speech at Greenock indorsed Lord Salisbury's attitude toward the Egyptian question and referred with the greatest satisfaction to the "prospect of an Anglo-Saxon entente."

Baron de Courcel, the French embassador, had another long interview at the foreign office Thursday with Sir Thomas Sanderson, permanent undersecretary of state for foreign affairs, and there is no doubt that important matters were under discussion.

The Paris correspondent of The Standard says: "I have excellent authority for the assertion that Major Marchand left Fashoda on his own initiative and that he will demand permission to withdraw the mission. Some his men are dying of hunger and disease."

The special correspondent of The Daily News at Omdurman telegraphs: "I have reason to believe that Major Marchand is waiting for instructions to withdraw the French mission from Fashoda."

The Paris correspondent of The Times says: "If France directs Major Marchand to retire from Fashoda, she will refuse to enter any ulterior negotiations, preferring to leave the question quite open and awaiting a more favorable opportunity to reopen it."

Bad Fire In Haverhill, Mass.

HAVERHILL, Mass., Oct. 29.—Two large four story buildings in the center of the business district of this city were burned last night, causing a loss of over $50,000, which is well covered by insurance. Within 15 minutes after the dry goods store of T. W. Jacobs & Son had been closed for the night an explosion took place in the basement, and in a very short time the building was on fire from basement to roof. The adjoining building was wholly consumed in spite of hard work by the firemen. Thick fire walls held the flames within their limits.

THE DREYFUS TRIAL

Hope For the Prisoner of Devil's Island.

MANAU DEMANDS THE DOSSIER.

Says Court Must Acquit Dreyfus if It Is Not Produced—Evidence That Boisdeffre Ordered It Burned.

PARIS, Oct. 29.—At yesterday's session of the court of cassation Procurator General Manau declared to the court that there was no evidence to prove Dreyfus guilty.

He then asked the court to suspend the punishment of Dreyfus pending the decision of the court upon the question of revision of his trial.

Counselor Bard concluded his formal statements to the court as the result of his investigation of the available evidence, finally contending that the elements of evidence actually reliable were insufficient for the conviction of Dreyfus.

He declared that if the so called secret evidence was not produced immediately he would ask the court to conclude the inquiry and pronounce in favor of Dreyfus.

This is the evidence which is withheld from the court by the army. It is now charged in many quarters that the mysterious dossier does not in fact exist, but that it has been destroyed because of the great names which appear in it and for fear the "honor of the army" would be dragged in the mire by its publication.

At the close of M. Bard's speech M. Mornard, counsel for Mme. Dreyfus, addressed the court, dealing with the conclusions contained in M. Bard's address.

M. Manau, the procurator general, at the beginning of his part of the discussion exclaimed:

"Let us go on with revision!"

This utterance created a sensation in the court. M. Manau then declared that revision was a legal necessity.

A significant point in the testimony was the revelation of the fact that General de Boisdeffre gave orders after the Dreyfus case was supposed closed for the dossier, containing the bordereau, to be burned and expressed surprise afterward to find that his orders had not been executed.

Thus far the war office has not been represented in the present proceedings, and there is still but little hope of the secret dossier being produced, especially if—as, however, looks somewhat doubtful—M. Dupuy succeeds in forming a cabinet. He was premier during the Dreyfus trial, and his appointment delights the anti-Dreyfusites, who see in it an indication that President Faure has a greater sympathy for the army than for the discovery of the truth.

It is asserted that the father-in-law of Dreyfus has received a letter from the prisoner in his own handwriting. Formerly only copies of his letters were transmitted, and the new departure is regarded as a favorable sign.

Judge Day and Senator Gray of the United States peace commission visited the court of cassation while M. Manau, the procurator general, was reviewing the Dreyfus case.

Provided with a letter from General Horace Porter, the United States embassador, to the presiding judge, the two Americans, with the second secretary of the United States embassy, proceeded to the department of justice, where, after much formality and to the subsequent surprise of General Porter, an order was secured from the presiding judge to admit the commissioners.

Upon their entrance into the courtroom the 15 judges constituting the court bowed a dignified greeting without verbal welcome. The visitors were shown to seats on the bench and witnessed the proceedings for an hour with deep interest Mme. Dreyfus was present in the courtroom.

Dupuy Accepts Premiership.

PARIS, Oct. 29.—M. Dupuy has formally informed President Faure that he will accept the task of forming a new cabinet. M. Dupuy has secured the support of MM. Ribot, Delcasse and Leygues.

Effect of M. Bard's Report.

LONDON, Oct. 29.—In moderate circles, according to the Paris correspondent of The Times, where a serious effort is being made to discover the truth in the Dreyfus affair, the impression left by the report of M. Bard, official reporter to the court of cassation, and by the requisitoire (petition) of M. Manau, the procurator general, is "profound, painful and discouraging."

The correspondent of The Times continues: "The thought which weighs like a pall on the country seems to be a reluctance to believe in the complete innocence of Dreyfus, because such a belief would involve such terrible censure of those responsible, knowingly or unknowingly, for his condemnation."

Fatal Boiler Explosion.

HOUGHTON, Mich., Oct. 29.—Boiler No. 8 of the Calumet and Hecla stamping mill exploded yesterday, instantly killing John Gillies and Joseph Bolero, employees of the mill, and William Nellon of Bruce Mines, Ont., a friend who was visiting Gillies. Nellon and Gillies were standing in front of the boiler when the explosion occurred, and both were instantly killed, their bodies being badly torn. Daniel La Frencar was also fatally injured. The cause of the explosion has not yet been ascertained.

Colonel Bryan Much Better.

SAVANNAH, Oct. 29.—Colonel W. J. Bryan, who has been ill at his hotel since his arrival here, is much improved and received a number of callers yesterday. The corps surgeon says that he has a light form of typhoid fever. Colonel Bryan says he is not in a night to require his wife to make the journey here from Nebraska, and she will not come unless Mr. Illness becomes serious.

DUN'S REVIEW.

Effect of European Complications on American Trade.

NEW YORK, Oct. 29.—R. G. Dun & Co.'s review of trade says:

Business has been more affected by foreign affairs than many realize. London's apprehension of war first caused advance in wheat and fears of monetary pressure here. Then came confidence in London, with a flight of French money across the channel, and stock markets have advanced, while wheat fell. Mobs in Paris did not mean to influence American interests from New York to San Francisco, but electric wires have made the world small. So the wires moved a cargo of wheat from the Pacific coast, started $3,500,000 more gold from Australia to this country on London account, and the selling of American securities one day and buying next.

Wheat rose 3 cents from Friday to Monday and then fell 4¾ cents to Thursday. But such changes do not represent actual conditions, and with western receipts for the week, 9,558,305 bushels against 6,996,487 last year, nobody can pretend that holding of stocks by western farmers is an important factor. The Atlantic exports, flour included, amount to 2,796,836 bushels against 3,864,649 last year, and Pacific exports 825,994 bushels against 1,826,803 last year, making 16,607,303 bushels in four weeks against 19,418,847 last year, when the foreign demand was far beyond all precedent. In four weeks the western receipts have been over 40,150,699 bushels against 30,723,288 last year, and yet prices are 25 cents lower. This clearly indicates much larger supplies and greater readiness to part with them than was seen a year ago, when nobody doubted the magnitude of the foreign demand.

Cotton rose to 5½ cents last week, but has fallen to 5⅝ cents in spite of heavy frosts in part of the growing region.

Foreign trade continues to show larger gains in exports than in imports over last year, the increase for three weeks being about $2,800,000, or 9 per cent, in exports against $700,000, or 3 per cent, in imports, which indicates another heavy balance in favor of the United States for the month just closing.

Failures for the week have been 226 in the United States against 219 last year and 24 in Canada against 25 last year.

TO RAISE THE MAINE.

San Francisco Company Proposes to Save the Ill Fated Warship.

WASHINGTON, Oct. 29.—The Acme Wrecking company of San Francisco had made a request upon the navy department for authority to raise the battleship Maine. The company has had experience in raising vessels on the Pacific coast and representations have been made to the department as to its ability to accomplish the task in Havana harbor.

It proposes to blow the mud from under the wreck by means of streams of water, and then to pass under chains and attach them to frame work connected with a system of steel barrels. These barrels will also be placed in the wreck and utilized wherever they can be made available. The company simply asks authority to raise the Maine and bring her to this country.

If the government wants the ship after she reaches the United States, the company will want to be paid salvage money through condemnation proceedings. It is probable in case the government did not want the ship, the company would exhibit her in different large seacoast cities of the United States. No money is demanded from the government by the company. It is stated at the department unofficially that in case the company is found reliable the authority asked will no doubt be given.

YESTERDAY'S CIVIC CELEBRATION.

A Splendid Pageant—Patriotic and Historical Floats—Trade Organizations, Hibernians and All Kinds of Knights in Line.

PHILADELPHIA, Oct. 29.—The great peace jubilee was brought to a glorious conclusion yesterday. Beginning with last Sunday's church services and including the naval and military demonstrations of Tuesday and Thursday and yesterday's monster civic parade, the celebration has been an unparalleled success throughout.

Although President McKinley and the others of the Washington party returned to the capital Thursday night, interest was no less eager in yesterday's programme, which was not marred by a single unfavorable circumstance.

The day opened with the rededication of Independence hall.

Governor Hastings, Mayor Warwick and the other officials reviewed the parade from the same stand in the court of honor which the president occupied Thursday.

The head of the line reached that point at 1 o'clock yesterday afternoon, and for three hours and a half thereafter Broad street looked like a stage upon which is performing a great spectacular extravaganza. It was essentially a show of color and glitter, with nothing of the somber pomp of war.

The feature of the events of Tuesday and Thursday was popular exaltation of the nation's defenders and tribute to their valor. Yesterday's parade was a picturesque and comprehensive exhibition of the industries and arts to which the nation, having laid down its arms, has returned.

More than 20,000 men were in the line, the beauty of which was enhanced by many interesting floats. Especially handsome were those illustrative of the arts. The float of the School of Design For Women dealt with the renaissance, the subject being "Peace Receiving the Homage of the Industries." The other art schools were represented by floats typifying classic art and the mechanical trades. Among the subjects were painting, sculpture and architecture, and many of the students, costumed according to the respective periods, were in line. There were also a weaver at his loom, a dyer at his vat, a printer at his press, a potter molding his clay, with many other symbolic figures.

The commercial museums had floats descriptive of Hawaii, the Philippines, Porto Rico and Cuba. Four natives in costume were on the Hawaiian float, which also carried bags of sugar, coffee and other products. The same idea was pursued on the other floats representing our newly acquired colonies.

One of the most elaborate displays was that styled "Our Reunited Country." It showed a group of American soldiers, among whom stood, with clasped hands, a Confederate and Union soldier. "After Many Years" was the title of a float representing John Bull and Uncle Sam clasping hands across the bows of their respective cruisers. "A Trifle Embarrassed" showed Uncle Sam and Miss Columbia standing at the threshold of the "United States Foundling Asylum," at their feet a group of dusky children representing Hawaii, the Philippines, Cuba and Porto Rico clamoring for recognition.

Other floats showed Hobson's raft, Dewey at Manila, the Red Cross ministering to wounded soldiers, the heroes of the war and liberty, the latter represented by Columbia and the 13 original states.

The evolution of the army and navy was illustrated by bodies of marching men dressed in the costumes of the different periods of American history from 1776 to 1861.

Three hundred employees of the custom house and 1,000 of the postoffice marched near the head of the line, and after them came large delegations from secret and benevolent orders. The Knights of the Golden Eagle turned out 2,500 men and half a dozen floats typical of the order. The Patriotic Sons of America had 1,800 men and several floats, the Junior Order of United American Mechanics had 5,000 men, the Ancient Order of Hibernians 3,000, and many other societies of various character were largely represented. German, Italian, Slavonic and colored organizations had places in the parade and even the Chinese societies turned out 200 men, who made a fine appearance and gained much applause.

The fire companies marched with their ancient and modern machines.

The balance of the line was made up of trades displays. The butchers and the barbers and the cigar makers and the bakers and almost every other line of trade were represented by large bodies of men and many descriptive floats.

One of the events of the day was a reception aboard the new Japanese cruiser Kasagi, by Captain Kashiwabara and the officers of the ship. The function was in the nature of a farewell, as the Kasagi, which recently went into commission, will shortly sail for England and after receiving her guns thence to Japan. Among those who attended were General Sumner, Commodore and Mrs. Philip, Captain Sigsbee, Captain Folger, Lieutenant Commander Marix, Governor and Mrs. Hastings, Mayor and Mrs. Warwick, Ambrose Butler of Buffalo and a large number of state and city officials, army and navy officers and distinguished jubilee guests.

Canadian Fishery Dispute.

MONTREAL, Oct. 29.—The Star publishes a dispatch from Quebec to the effect that the government has declared that the English settlers at Anticosti, whom M. Menier has accused of being pirates, are good citizens and must not be molested.

A NEWSPAPER "BEAT."

How a "Scoop" Was Made on the First Naval Battle of the War with Spain.

Walter Russell contributes an article entitled "Incidents of the Cuban Blockade" to the Century. Mr. Russell says:

My time while on the blockade, serving as a special artist, was about equally divided between the various warships and a small steam-yacht the duty of which was to divine intuitively when and where something was to occur, and be there to witness it. Our little crew of four constituted a strategy board in itself. We were, indeed, war prophets. More than once wisdom in our reasoning brought us our reward. More than once we were alone in our glory, the only dispatch boat on the spot.

A sailor boy had asked me to bring him from Key West 50 boxes of cigarettes for some of the crew; and one morning I threw the bundle upon the deck of his ship. Tearing off the cover, he scrawled the words: "Thanks! Hope to meet you 22 miles to the eastward at noon," and sealed the bit of pasteboard to me.

A correspondent who by common consent was chairman of our strategy board was on board the ship at that time, and obtained another slight clew.

So we headed eastward from Havana, while the blockading fleet lay basking serenely in the sun. So also did many dispatch boats. At noon my sailor friend and his ship were there. Shortly after noon there was an engagement—the first of the war—and there was no other dispatch boat near. Next morning New-Yorkers were informed that dispatch boats were as numerous there as pickets in a fence. Every newspaper had a dozen. The incident was witnessed by only one artist besides the writer; yet I have since seen a double-page color supplement of that battle in a weekly periodical, where, under the artist's name, was printed the claim that it was sketched from our yacht.

A BIG TELESCOPE.

M. Gautier and the Giant Instrument He Is Constructing for the Paris Exposition.

An article in La Nature states that M. Gautier, the optician, is making good progress with the construction of the giant telescope intended for the great exhibition at Paris in 1900. The aperture will be 1.25 meters (49.2 inches), and the focal length 60 meters (196 feet 10 inches), while the estimated cost is 1,400,000 francs.

An equatorial mounting and dome for such a gigantic instrument may well be considered impracticable, and accordingly the telescope itself will be rigidly fixed in a horizontal position on supports of masonry, and will receive the light of the heavenly bodies after reflection from a movable plane mirror two meters in diameter. The plane mirror is 13 inches thick, and weighs 3,600 kilograms, and it is curious that of 12 disks cast for the purpose the first one turned out to be the best. This has been in process of grinding for seven months, and is not yet finished.

There will be two objectives, one photographic and one visual, which will be easily interchangeable at will. It is expected that a magnifying power of 6,000 will be usefully employed, and that occasionally a power of 10,000 may be used. As the highest power available in the largest existing telescope does not exceed 4,000, the new instrument, if it be the success that everyone will wish, should have a wide field of usefulness.

TOPPING OUT IN WASHINGTON.

An Old Custom Among Bricklayers in the Capital City Which Is Dying Out.

"What was once a very general custom in this city, 'topping out,' as it was called," remarked an old bricklayer to a Washington Star reporter, "has nearly died out, and some of the new generation of bricklayers have never participated in it. 'Topping out' occurred the day the last course of bricks was laid in a house and was to celebrate the event. On the morning the 'topping' was to take place a flag was raised on the building. It was also a signal for the owner of the building to prepare a lunch and the customary drinkables, especially the drinkables, for all hands engaged on the building. Of course, it generally wound up in a mild kind of spree, but it was the custom, and no one who amounted to anything ever refused to give a 'topping out.' The best kind of punches were often provided for 'topping out,' though in later years it ran down to beer.

"In the days when ale was the drink I have known of a barrel of ale being used at a 'topping out,' besides a barrel of sandwiches. The day Dr. Hall 'topped out' his house on C street near Four-and-one-half street, which, by the way, was the first brown stone front ever put up in this city, he not only furnished all the ale and porter necessary, but used up three baskets of fried chickens, cakes and other things. It was the talk of the town for years, especially among mechanics. There were also a number of other famous 'topping outs.' Mayor Berret 'topped out' his house on H street, between Fourteenth and Fifteenth streets, with fine champagne, as did also Mr. Galt, the jeweler, who built a house next to him. Many of the hod-carriers were given bucketfuls of cakes, cookies and sandwiches at the close of the 'topping out.' But those days have passed and when anything is said to the owners of houses being built these days, they express ignorance of the custom and decline to observe it when it is explained to them."

SALTED WITH A PISTOL.

How an American Assayer Found That the Gold Was Ready for Mixing.

A curious story of mine salting comes from South Africa. The proprietors of a worked-out claim hearing of the arrival of a young Englishman with capital, carefully "salted" the mine before inviting him to inspect it.

The salting process was accomplished by loading a horse pistol and placing a sovereign as wadding, which, on being fired at the rock, split up into hundreds of minute glistening particles. This process was repeated five or six times, and, all being ready, the victim was taken down to look for himself.

Knocking off some of the rock where the precious metal showed most abundantly, the new arrival asked for a couple of days to consider the matter, and this being given he quietly took the "quartz" to an American analyst, and desired him to test the value of the sample. On returning to hear what the analyst's opinion was, he was greeted by the remark:

"I guess this is a very valuable sort of mine, for this gold is all ready for the mint; nature's added the alloy in precisely the same proportion to the gold as you do in your sovereigns."

The mine is yet unsold, but it will probably be floated in the London market some day, remarks a London weekly.

A YOUNG MOTHER

flushed with perfect health and strength, said, as she exhibited with pride her baby, "I must confess that my present health and the almost phenomenal development and good health of baby are due to the use of Pabst Malt Extract, The "Best" Tonic. The necessity of feeding the child was such a tax on me at first that I became nervous, weak and exhausted. "Best" Tonic was recommended. I took it and began to build at once. Baby began to show the effects within a week. I continued its use for months, until I went out into the country and neglected to take my tonic with me. I lost fifteen pounds in six weeks, and could scarcely feed baby. Since returning, some three weeks ago, I have again been taking "Best" Tonic. I have gained six pounds and the little one is again progressing. Just think, he is nineteen months old, weighs 32 pounds, and I have not weaned him yet."

Let every mother apply this to her own experience and at least give the "Best" Tonic a trial, if not for her own sake, for that of her child. Let her provide for baby as nature says every mother should.

To produce magnificent children was a supreme aim among the Greeks, those lovers of perfection in those rigid athletic exercises which aggrandized the glory of the body. For without a perfect body how can a babe at once begin to fight the battle of existence with conquering energy, or how derive those elements of hardiness, pure blood, calm nerves and bright mind, if the mother is not prepared, helped and insured against too great weakness, given the right sustenance, and kept in a position of ease, happy thought, pleasing sensations and good sound slumber? Hundreds of children are puny, slow, with nerveless supine motions and unintelligent countenances, because the mother was forced to put all her energies into the power to bear them, without the strength besides to give them the vital flow of sturdy health. Habitual use of Pabst Malt Extract, The "Best" Tonic, makes rich and pure blood, strengthens the bones and muscles, and adds to the development of the perfect form, a glowing vitality in the mother, which aids her not only to bear, but build.

I have seen very good results from the prolonged use of your Malt Extract, The "Best" Tonic, and I find the preparation very beneficial, especially for nursing women.
DR. F. BECKER-LAURICH.
New York, N. Y.

I find Pabst Malt Extract a very good tonic, and have ordered several of my patients to get a case of it. I shall keep ordering it for my patients as long as I find it benefits them as much as it has.
F. J. HASTINGS, M. D.
Boston, Mass.

My wife has begun to take Pabst Malt Extract, and it seems to have benefited her already, though she has not taken enough yet to expect any great improvement. She has taken a great deal of malt and thinks that, on the whole, Pabst's is the best in reality as well as in name. I shall surely prescribe The "Best" Tonic in cases where a malt extract is indicated. G. W. HUSE, M. D.

TOMPKINS'

Big Store, No. 35 North Street.

We find it next to impossible to give a showing to a fraction of the goods that are clamoring for admission to our advertising columns. Many of them find a small notice below; many of them we cannot even mention. It will pay to remember that the special sale of Blankets and Quilts begun last week also goes on all this week, and that the Underwear Department is doing its utmost to break its record for low prices: that the Silks and Dress Goods were never prettier in colors and weaves and never cheaper in price, and that Jackets, Suits and Millinery are here in their full bloom this week.

Don't trifle with a distressing and dangerous disease when a sure cure is within your grasp. Thousands of sufferers whose condition was worse than yours have been cured and are now in perfect health. Their enthusiastic and unsolicited testimonies show beyond the shadow of a doubt that

The most eminent nose and throat specialists in the world have given it their unqualified endorsement. In all cases of catarrh, colds, sore throat, asthma, hay fever and influenza it acts like magic. It is easy and pleasant to use. It never fails to do precisely what is claimed for it. In less than an hour it will prove its worth if you will but give it a chance. A prominent evangelist gives testimony:

Rev. Warren Bentley, writes:—"While in Newark, N. J., conducting religious services, I was troubled with catarrh and used Dr. Agnew's Catarrhal Powder. It gave me great relief and I have recommended it to many among whom I have labored." Hon. BEST OF ALL DOCTORS!

Good Health of Countless Americans Due to Paine's Celery Compound.

Countless homes in every city in America have been saved from the loss of some despairing member by Paine's celery compound.

The story of the life-work of the discoverer of this world-famed remedy is familiar to most reader. The likeness of Dartmouth's greatest professor, Prof. Edward E. Phelps, M. D., LL. D., given above, is the best portrait of him yet printed

"Excepting its handful of magnificent statesmen and its military heroes," says the most recent writer upon and critic of America, "the people owe more to Dartmouth's physician-teacher than any other one man.

"In every walk of life, among the highest office-holders at the national captial, in the homes of the best people in the large cities, among the every-day folks of the country, families that live from hand to mouth, and could not if they wished, afford the services of any but an ordinary physician—everywhere I have met people to whom Paine's celery compound has been a blessing."

It was the world-famed discovery by Prof. Phelps of an infallible cure for those fearful ills that results from an impaired nervous system and impure blood, which has endeared the great doctor to the world, and made his life an era in the practice of medicines.

Prof. Phelps was born in Connecticut and graduated in medicine at Yale.

His unusual talent soon brought him reputation and prominence among his professional brethren. First he was elected to the professorship of anatomy and surgery in the Vermont University. Next he was appointed lecturer on materia medica and medical botany in Dartmouth College. The next year he was chosen professor of the chair then vacated by Prof. Robby, and occupied the chair, the most important one in the country at the time when he first formulated his most remarkable prescription.

Prof. Phelps has given to his profession in Paine's celery compound a positive cure for sleeplessness, wasting strength, dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. It is the only specific recognized and prescribed to-day by the best physicians for diseases arising from a debilitated nervous system. For such complaints Paine's celery compound succeeds again and again where everything else fails.

No remedy was ever so highly recommended, because none ever accomplishes so much.

Paine's celery compound stands without competition for feeding exhausted nerves and building up the strength of the body. It cures radically and permanently. A healthy increase in appetite and a corresponding gain in weight and good spirits follow the use of Paine's celery compound. It is the most remarkable medical achievement of this last half of the nineteenth century.

—The Railway Automatic Sales Company offers a reward of $100 for information that will lead to the conviction of the persons who stole the chewing gum machine from the Liberty station.

—Thieves made an unsuccessful attempt, last Saturday night, to rob the general store of William Manion at Liberty Falls. The thieves had removed a rear window from the store, when it is supposed they were frightened away by a passerby, and lucky for the thieves that they were frightened away, for had they entered the store at least one of them would now be hors de combat, for Mr. Manion has a gun so arranged that when a wouldbe thief steps on a certain spot in the store the gun is discharged and the load enters the body of the thief. Mr. Manion has taken this and other equally efficient methods to protect his property, because he has suffered considable loss by thieves in years past.—*Register.*

—Liberty's reorganized Board of Sewer Commissioners has adopted the plans for a sewerage system prepared by Mr. Wise several years ago. The plans have been amended so as to permit the extension to meet the demands resulting from the growth of the village.

In 1897, under Republican rule, the city tax levy was $102,787. In 1898, under Democratic rule, it was only $80,336. The saving to the taxpayers was $22,451, and every dollar thus saved is a reason for continuing the Democrats in control of the city's affairs by electing the whole Democratic ticket.

The Lieut. Governor has left the Roosevelt combination and gone back to his home in Brooklyn. The special train was made so frigid for him after he was howled down at Rochester that tonsilitis developed. But in spite of the odium heaped upon him on account of the Rochester incident Woodruff is the squarest and boldest man on the Republican ticket. He is no dodger. He alone is willing to face the canal issue and defend his party's in expending the $9,000,000 appropriation. He sulks behind no "ifs," but the Republican party isn't fighting in the open, this year, and therefore Mr. Woodruff is sent home in disgrace.

The machine Republicans of this city are straining every nerve in behalf of Louis Bedell. They forced his nomination in order to humiliate the antis and feel a special interest in rolling up a good vote for their candidate. Mr. Bedell spends much of his time here,—in fact he seems to be making Middletown his hunting ground for votes, and all the machine leaders are making a still hunt for votes for him. They are going about among Democrats asking them as "a personal favor" to vote for their "friend, Bedell." This is one of the "personal favors" no Democrats should be trapped granting. There are half a hundred reasons why Democrats should vote against Mr. Bedell. His defeat, this year, will be a blow from which the Republican bosses will not soon recover.

A year ago the Democratic party promised the people of Middletown that if it was was placed in control of the city government it would reduce expenditures and lower the tax rate. That promise has been kept to the letter. The tax rate was reduced nearly $6, from $25.85 to $20 and the tax levy was cut down from $102,787 in 1897 to $80,336 this year. It is on this record and the pledge of a continuance of the same policy of economy and regard for the taxpayers' rights and interests that the Democratic party asks the people of Middletown to continue it in charge of city affairs.

COLONEL WARING DEAD.

Succumbed to Yellow Fever at His Home in New York, This Morning—Body to Be Cremated This Afternoon.

BY ASSOCIATED PRESS.

NEW YORK, Oct. 29.—Col. George E. Waring, Jr., former Street Cleaning Commissioner, died of yellow fever at his residence here at 7:45 a. m., to-day.

Colonel Waring arrived from Havana on Tuesday last. He had been sent to Havana as a special commissioner to ascertain the exact sanitary conditions there, and to form ideas for the best methods for putting the place in first class sanitary shape. He was to report to the President and on the day he returned he said that he expected to go to Washington next day. He felt unwell, but it was not thought he had more than an ordinary illness. He said that he had a great deal of information which he thought would be of service to the President.

The plan of the commission was to place Havana and the coast towns of Cuba in such sanitary condition that a recurrence of yellow fever and its entrance into the gulf cities of the United States would be prevented.

President Murphy, of the Board of of Health states that the body of Colonel Waring will be placed in a hermetically sealed casket, and taken to Swinburne's Island, where it will be cremated. There will be no funeral services.

The father, mother, brother and three sisters of Mrs. Waring died of yellow fever in New Orleans, several years ago.

At 10:45 o'clock a metallic casket was taken into the house and in 40 minutes more the body had been taken away. It was placed in an ambulance and taken to the dock at the foot of 15th street, where a quarantine boat, in charge of Mr. Doty, who was formerly in charge of the yellow fever camp at Fontableau, Fla., was in waiting.

The body was then taken to Swinburne Island, where it was placed in the retort. Dr. Doty lit the fire which cremated the remains. As soon as the body had been removed from the house, the apartments of the Waringe were fumigated.

ALLAN AGAINST FULLERTON.

Beginning of Hearing Before Referee Bacon—The Action Brought by Mrs. Allan Against the Venerable Jurist.

The case of Mrs. Agatha Allan vs. Judge William Fullerton, of Newburgh, was begun, Friday, in Supreme Court Chambers, before Hon. Henry Bacon, of Goshen, as referee, at Newburgh.

Mr. Hance was the first witness. He testified that he had seen Judge William Fullerton in regard to Mrs. Allan's claim, and that Judge Fullerton had made some admissions to him concerning the amount he owed Mrs. Allan.

Other witnesses gave testimony more or less important, and the hearing was still on as the *Journal* went to press.

SULPHUROUS ACID GAS has long been recognized as the most effective, desirable and handy means for fumigating and disinfecting, and eradicating yellow, typhus and scarlet fevers, small pox, diphtheria, tuberculosis, etc.

SEABURY'S SULPHUR CANDLES, used as directed, and generating SULPHUROUS ACID GAS, present the most convenient method for accomplishing the most thorough and reliable disinfection of all apartments and articles exposed to their action. Mrs. Mary J. Brome, of Denton, has brought suit against the town of Wallkill for $10,000 damages sustained by being thrown from a sleigh last February near the residence of Sylvester Giveans. Mrs. Brome's hip was broken by the fall and she was in other respects severely injured.

HOME FROM HONOLULU.

Corporal Powelson and Private Sengstacken Reach This City—The Former Suffering from Fever.

Corporal Howard J. Powelson and Private S. H. Sengstacken, of Company I, First Regiment, arrived in this city from Washington, Friday night.

Corporal Powelson telegraphed his father, District Attorney Powelson, to meet the Middletown Way with a carriage, as he was sick. Private Sengstacken, himself, thinned and weakened, assisted in the removal of the corporal to his carriage. Dr. Mills was called to attend him, and he found the corporal suffering from a high fever.

Just before leaving Washington the corporal received sixty days furlough.

Private Sengstacken was seen by an Argus reporter at his home on Liberty street, this morning. He states that Private Phillips was left in St. Elizabeth Hospital, at Washington, and that he showed some signs of improvement. He had begun to accept nourishment.

Mr. Sengstacken also received a sixty-day furlough. He stated that the boys have lost a great deal of flesh and in some instances would hardly be recognized. The general health, however, is good.

PORT JERVIS' SOCIAL PROGRESS

"Gloved Guests" Able to Wear "Party Clothes" Without "Formality and Stiffness."

The Port Jervis *Gazette*, in its account of a recent social function, in that village, says:

Although the guests were in full dress, there was a lack of that formality and stiffness which gloved guests are apt to assume with their party clothes.

It is gratifying, indeed, to have this assurance that the good people of Port Jervis have so far emerged from their backwoods provincialism that "gloved guests" are able to wear "party clothes" without a feeling of constraint and awkwardness.

It is also a pleasure to note that the esteemed *Gazette* says that the guests spent the evening in "sprightly conversation" although they "were left to amuse themselves as they chose."

TO THE FOOT BALL GAME.

Plenty of Middletowners About the Gridiron.

The foot ball enthusiasts in this city and Goshen looked at the clouds, to-day, and almost gave up the proposed trip to West Point, to watch Yale do up the coming Wheelers and Chaffee's. The feeling of unrest spread during the morning, and by noon the ex-collegians and the fellows who never got any farther than old Wallkill Academy, began to go home for their overcoats.

The train left promptly on time, with 144 passengers. There were eighty-four at Wickham avenue and sixty at Main street. The train was of four cars.

THE STATE HOSPITALS.

More Recoveries and a Lower Per Capita Cost of Maintainance.

The State Commission in Lunacy is much gratified over the financial and administrative results attained in the State Hospital system during the fiscal year which has just ended. The recoveries for the year in the entire system were 1,018, as against 951 for the year immediately preceeding, and the average per capita charge, covering disbursements of all kinds for food supplies, medical care, and treatment, clothing, repairs, etc., was $184.16, the lowest rate which has prevailed at any time since the inauguration of the State care system. When the higher cost of food and other supplies is taken into consideration this is regarded by the commission as a remarkable showing.

A Candidate for Alderman Very Seriously Ill.

J. J. Wood, the Republican candidate for alderman in the Fourth Ward, is very critically ill. He is suffering from inflammation of the bowels and kidneys. A consultation of physicians has been held, and although everything possible is being done for him, grave fears are entertained that he will not recover.

John C. Halligan's Insurance Invalidated.

Mrs. John C. Halligan went to New Rochelle, Friday afternoon. She attempted to pay up the bank insurance on her husband, Friday morning, but the money was refused. The fact that her husband committed suicide, however, would also have invalidated the policy.

Bullets in a Case of Straw Hat Braid.

When a case of Manila straw hat braid imported by way of China was opened in the Union Hat Company's factory, Friday, it was found that several of Uncle Sam's big bullets had been shot through it, and one bullet was found imbedded in the braid. Mr. Benson will keep it as a souvenir of Manila.

School Boys' Foot Ball Games.

The Port Jervis High School foot ball team, went to Warwick, to-day, to play a game of foot ball with the team at that place.

The Middletown High School team went to Goshen, this afternoon, to play the local team.

Had Pronounced Halligan Insane.

John C. Halligan, who committed suicide in New Rochelle, Thursday, was examined by Dr. Burke Pillsbury and Dr. J. L. Hanmer on Sept. 30. These examiners, who hold commissions as examiners in lunacy, pronounced him insane.

GAME IN PLENTY.

Hunters Report That They Are Having Good Sport and Show Well Filled Game Bags.

Hunters report that there is plenty of game very close to this city. Rabbits are especially plentiful, but they are not being hunted very eagerly as yet. Snow makes good rabbit hunting and they are in better shape then to be eaten.

Birds have been found by many who don't even claim to be crack shots. One man produced eighteen woodcock, Thursday, which were quickly snapped up by the game eaters at fifty cents a pair.

One sportsman who never hunted before this year, was walking around the old reservoir in quest of ducks, Wednesday, when he came upon a flock of five broad bills. He got three out of the five.

First Presbyterian Endeavorers Spend a Pleasant Evening.

At the social of the Y. P. S. C. E. of the First Presbyterian Church, Friday evening, at the home of Mr. and Mrs. C. H. Sweezy, on Wickham avenue, a large number was present.

Conundrums were guessed and amusing charades were played.

During the evening refreshments were served.

A Sussex County Post Office Robbed.

The post office at Hamburg, N. J., was entered by burglars, Tuesday night, who blew open the safe and got away with a considerable amount of money and stamps. The thieves reached Hamburg on a Susquehanna and Western hand car taken from the track house at Deckertown, and they escaped on the car, abandoning it some distance below Hamburg.

Catarrh, which very often comes from a chronic affection of the circulation, is a constant offense to one's self and all his friends.

Rheumatism, which all authorities now attribute to various acidities in the blood, which this great blood purifier of the age, Hood's Sarsaparilla, corrects.

TRIALS OF THEIR OWN.

Housekeepers Have Them Just as Well, and as Many of Them, as Their Husbands.

None of them had been married very long and their interest in the mysteries of housekeeping had not died out.

"What is the most awful thing which ever happened to you since you kept house?" asked the dark-eyed girl. The group sighed as one woman. "We haven't time to tell," they chorused.

I think," spoke up the prettiest one, "that the time I most wanted to crawl under the rug and just die in lonesomeness was at my first card party. Five couples had been served with ice cream when it gave out. There were eight more!"

"Why, I never knew that!" cried her husband, who was on the outskirts of the bevy.

"Of course not!" she flashed. "You happened to be at the second table and when I saw you placidly putting away the ice cream while your guests over the room were starving I—I came near disliking you!"

"What did you do?" asked the other seven.

"Oh," she said, "I just told them coldly that the ice cream had given out and they couldn't have any. What could I do? I felt as though red-hot needles were sticking into me when I did it, too."

"Tom brought a man home to dinner one night," reminiscently said the old worm of the crowd. "Of course it was on a day when the cook had left and there wasn't a thing to eat, but I resolved to do my duty as a wife so I smiled and smiled and got hold of a nice steak by threatening to massacre the butcher's boy who wanted to deliver it at the flat above, where it was ordered, but I was desperate. I put that steak in the broiler and held it over the coals—we didn't have a gas stove. It was slow work. I picked up the evening paper and began reading it. As I read I turned the broiler over and over constantly

IT WAS SLOW WORK.

remembered mother saying when cooking meat it must be done on both sides. I was in the middle of the interesting article when I noticed I was choking to death. My whole kitchen was smoking like a furnace, and the steak—well, charred bits were just kind of scattered around in the broiler. I gave them the main breakfast bacon."

"I never gone down in a bath with your hair like a wild Indian to answer the postman's ring and discovered it was your wealthy aunt or your dearest enemy on the doorstep?" asked the blonde, who complained to the janitor about the noise your neighbor's children were making in the court, only to be told the howling little savages were "wanderlings?" supplemented the mother of three.

"Did three people 'just drop in to dinner' when your meal was prepared for two—with small appetites?" chimed in the prettiest one in a low voice, and a glance at her husband. "Have your mother-in-law come to visit when you had forgotten to order bread and the pie crust would have been just the thing to make ice cream rubber boots?"

There was a sympathetic silence. "Now," sighed the one who had started the discussion, "it's better to be hardening."

Everyone looked more cheerful.

Borax for Dairy Products

Boiling boiled milk will usually prevent it for nearly 12 hours, if it is put in cool larder or cellar which is well ventilated, but the peculiar flavor it imparts to tea is a drawback. Here is a good plan to add half a teaspoonful of powdered borax to each pint of milk, stirring it well, so that the borax may dissolve quickly; this should be done as soon as the milk is taken from the dairy. Butter should be washed in borax and water, and a little bit of cold water, to which a little has been added. Cooking butter gives it a rank taste may be prevented by this means but plenty of salt should be used, and the butter must be well worked with butter pats.

Tooth and Tooth Wash

An excellent wash for the mouth and teeth and also for the hair is made by dissolving two ounces (about four even teaspoonfuls) of borax in three pints of boiling water, while still warm add three teaspoonful of spirits of camphor. Bottle and keep on the washstand when ready for use, add equal parts of warm water.

Remedy for Tough Steak

Any tough steak may be made tender if left to lie overnight or for a few hours in a strong soda (bicarbonate). Wash thoroughly and dry well before putting into a very hot frying pan. This is sometimes more convenient than broiling, and if the pan is properly hot and the cook attended to the result will always be similar.

It is undoubtedly a fact that our grandmothers, the pioneer women of the country, led more laborious lives than the housewives of to-day. In spite of this fact they bore their husbands healthy, robust sons and daughters, and did not become weak, complaining invalids as a consequence.

There are probably several reasons for this. One is, that they lived more in the open air, and another, and probably the most influential of all, is that they were less prudish than the women of to-day. They were not ashamed to know something of their own physical make-up. They were not too nice to take care of their health in a womanly way. Women now-a-days suffer untold tortures in silence, because of weakness and disease of the distinctly feminine organism, rather than consult a physician, or even talk upon the subject to their own husbands. They imagine that troubles of this description can only be cured by undergoing the disgusting examinations and local treatment insisted upon by the average modern physician. Doctor Pierce's Favorite Prescription cures all diseases peculiar to women in the privacy of their own homes. It does away with the necessity for examinations and local treatment. It acts directly on the important organs concerned, making them strong, healthy and vigorous. It fits for wifehood and the burdens of household duties. It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It banishes the discomforts of the time of expectancy and makes baby's advent easy and almost painless. Thousands have testified to its merits.

WOOD AT MANZANILLO.

Trying to Straighten Out the Affairs of That Locality.

MANZANILLO, Oct. 29.—The United States gunboat Hist arrived here last evening with General Leonard Wood, commander of the military department of Santiago, accompanied by Lieutenant Matthew Hanna. On landing General Wood was visited by Colonel Pettit and his adjutant, and he was subsequently received by Colonel Pettit's entire regiment, which, with the regimental band, executed a march past. General Wood then visited the barracks, hospitals, palaces, custom house and postoffice.

Colonel Pettit reports that the Cuban General Rios is apparently making every effort to prevent the disbanding of his troops. The Cuban commander wishes all the sugar estates in the neighborhood to tell him how many men they can employ and will guarantee to supply all required on condition that only soldiers are employed. The planters unanimously refuse to fall in with such an arrangement, considering that it would be a trades union of the worst possible kind and would also tend to keep up the Cuban military organization, which, in the interests of the island, the planters are particularly anxious to break up. In their opinion it would be better to have no commerce than to attempt it on such conditions.

There is practically no sickness in Colonel Pettit's regiment, and yellow fever has been unknown here for several years. Manzanillo is small, compact and in good sanitary condition.

Lieutenant Victor Blue, who has been inspecting the wrecks of the Spanish gunboats, considers it quite impracticable to raise them, but he believes the Spanish steamer Purisima Concepcion, which the Spaniards ran ashore in the hope of saving her cargo when pursued by an American warship, can be raised, as she appears to be in good condition. A local merchant, however, claims to have purchased the hull and its contents from the Spanish authorities.

The Cuban General Jesus Rabi paid a visit to Manzanillo Thursday and was enthusiastically received by the Cuban element.

According to reports from the Cuban assembly at Santa Cruz del Sur, General Calixto Garcia has been chosen permanent chairman of the organization. General Maximo Gomez is expected there today or next day, and it appears that the Cespedes faction believes it can count upon the help of General Gomez to break the authority of Garcia. The Cespedes faction expects General Gomez to appoint a court martial to try General Garcia for offenses covering practically everything from murder to petty larceny, but the probability is that General Gomez recognizing Garcia's ascendency in the assembly will not force an issue.

AT HAVANA.

Commissions Seem to Make Little Headway.

HAVANA, Oct. 29.—At yesterday's joint session of the evacuation commissions of the United States and Spain no conclusions were arrived at except as to matters of detail and of little importance. Thus far all matters of importance have been regularly referred to Paris for decision by the joint peace conference.

On Nov. 15 the quarantine against yellow fever will cease so that steamers between Havana and Tampa can carry passengers without immunity certificates.

About that time Rear Admiral Sampson will leave for the United States to attend the wedding of his daughter and it is the intention of Major General Butler to go to Washington before the latter part of next month.

Senor Atilano Colomo, one of the most prominent and wealthy Havanese has placed at General Butler's disposal for the remainder of his stay here a handsome carriage and pair with coachman and footman.

Colonel Lee and Lieutenant Colonel Livermore of the United States special commission on camp sites returned yesterday from the province of Pinar del Rio where they have selected three sites, from among which the government will choose one. Last evening the matter of a landing place was under consideration before the entire commission board.

JOINT TRAFFIC ASSOCIATION

A New Scheme Proposed to Take Its Place.

COLUMBUS, O., Oct. 29.—D. S. Gray, member of the board of managers of the Joint Traffic association, returned from New York last night and expressed the opinion that while under the decision of the supreme court the organization would have to be dissolved, something to take its place would doubtless in time be considered necessary. A central body governing the Trunk line and Central Freight associations in an advisory capacity may be formed, or the two associations may operate alone, as heretofore.

After nearly half a century of railway service and intimate connection with all associations and agreements yet formed, he regarded the Joint Traffic association as the best and believed that while it had been hampered in many ways the good that it really has done will continue to exert a beneficent influence on the great railway problem of the United States.

An Immune Has Yellow Fever.

SANTIAGO, Oct. 29.—Major Norman, surgeon to the Third immune regiment at Guantanamo, reports that there is only one case of yellow fever among the men and that the victim in this instance is already convalescent. Mr. W. E. Spicer of Boston, the postmaster at Guantanamo, died Thursday. His disease was diagnosed as a type of yellow fever. Yesterday Captain Jose Proval of the Cuban army, a popular young officer and a nephew of General Mayia Rodriguez, was buried with military honors.

"So you overcame that old antipathy of yours," her husband remarked, "and called on Mrs. Bobbles?"

"Do you think she was glad to see you?"

ALMET F. JENKS.

Democratic Candidate for Supreme Court Justice.

Almet F. Jenks was born in the city of Brooklyn on the 21st day of May, 1853. He was a son of Grenville T. Jenks, who was a leading lawyer at the New York bar.

He was educated at the Adelphi Academy, Brooklyn; Philips Academy and Yale College, and was graduated from Columbia College law school in 1877. He was admitted to the bar later in that year, and in 1878 became a partner of Frederick A. Ward.

In 1884, Mr. Jenks was appointed an Assistant District Attorney of the County of Kings, which office he held until the year 1886, when he resigned to become Corporation Counsel of the city of Brooklyn. He was re-appointed successively for three terms.

The administration of the law department by Mr. Jenks has been admitted on every side to have been able and clean. His entire time was devoted to the conduct of his office, and all its business came under his personal direction and control. Many important cases were tried and many interesting and far reaching questions of municipal law were argued and decided during his incumbency. The statute books during his eight years of office give ample evidence of his skill in this branch of the law.

At the close of his official connection with the city government, in the year 1893, he was elected a member of the convention called to revise the constitution of the State of New York. He was one of the leaders of the minority in this body.

Having resumed the private practice of his profession, he became a member of the law firm of Grout, Jenks, Mayer & Ryde, in 1897, of which firm Hon. Edward M. Grout, President of the Borough of Brooklyn, is also a member.

While the commission for drafting a charter for the Greater New York was in session, engaged upon their work, he received a special retainer as associate counsel in the preparation of parts of that charter, working in that respect with Hon. William C. DeWitt and Hon. Seth Low.

Upon the organization of the new city government he was again called to the service of the municipality and was appointed Assistant Corporation Counsel of New York City, taking office January 1, 1898, and as such was placed in complete charge of the legal business relating to the boroughs of Brooklyn, Queens and Richmond, having under his immediate control a large office force, including ten assistants.

While he held the office of Corporation Counsel of the city of Brooklyn, Mr. Jenks was made Judge Advocate, with the rank of Major, in the Second Brigade, N. G., S. N. Y., from which position he was subsequently promoted to be Judge Advocate General of the State of New York.

The qualifications of Mr. Jenks for the position of Justice of the Supreme Court, for which he is now in nomination, are plain. He has had large experience at the bar, both in the trial of causes and in the examination and argument of questions of law. This experience covers a general practice with large firms, including all branches of the law of a civil nature, a practical acquaintance with criminal law, acquired in the performance of his duties as Assistant District Attorney, a familiarity and understanding of the constitutional law, as the immediate result of his labors in the Constitutional convention, a knowledge of military law, studied and expounded as Judge Advocate-General, and as a result of his long service as the legal adviser of the city of Brooklyn.

The Brooklyn *Eagle* of October 5th, 1898, speaking of the nomination of Mr. Jenks, said "He is one of the most distinguished authorities on municipal law at the American bar."

"M'FADDEN'S ROW OF FLATS."

A Farce Comedy Which Was Well Acted and Which Pleased the Audience.

The audience which took in "McFadden's Row of Flats" at the Casino, Friday night, had as hearty a laugh as any one could have asked for. It was by long odds the funniest farce comedy seen here in many a day. The comedians and specialists were first class, the music bright and catchy, and the girls were good looking, and costumed in the very latest stage and styie, regardless of expense.

The three dwarfs were very funny, and when two of them boxed, and boxed "for fair," the audience howled in delight.

Miss Gunnee's orchestra of seven pieces was a feature.

LIBERTY'S BUILDING BOOM.

The Most Prosperous Village in Southern New York—The Reason for the Village's Growth.

A few years ago, when the village of Liberty developed a building boom many people were skeptical of its future growth and advancement. But the boom then inaugurated has kept right on "booming" ever since, and the result is that scores of handsome residences, boarding houses and business blocks have since been erected, and the Liberty of to-day is a big, bustling, healthy country town, that bids fair to keep right on booming, and building, and bustling until it becomes the metropolis of the upper O. and W. section.

Just now there are upwards of a dozen fine buildings being erected and Liberty is consequently the liveliest place in several counties. A Middletown carpenter who recently secured work there was so impressed with the prospects in that village that he determined to move his family there at once. He forthwith started out in search of living quarters. He soon discovered, however, that there wasn't a house nor a suite of rooms in the town vacant, and he has been compelled to postpone his removal to Liberty until more houses are erected or rooms vacated for some cause or other.

It is a well known fact that Liberty's growth and prosperity are mainly due to the fact that she has a handful of citizens who are thoroughly public spirited and always alive to the interests of the village and who have made the most of the town's natural advantages. They pull all together all the time and the results of their efforts must be more than satisfactory. Petty jealousies and personal animosities cropping out at critical times will do more to retard the development and growth of a community than will any other one thing, and the secret of Liberty's growth lies in the fact that personal ambitions and personal jealousies have been subordinated to the public good.

A Croup Cure

is what many a mother is looking for; something absolutely safe and reliable, that will disarm her terror of that dread rattling, strangling cough, so fearful to the mother, so fatal to the child. Ayer's Cherry Pectoral is a croup cure that can be relied on. Thousands say so.

MRS. W. J. DICKSON ("Stanford Eveleth") writes from Truro, N. S.:—

"That terror of mothers, the startling, croupy cough, never alarmed me so long as I had a bottle of Ayer's Cherry Pectoral in the house."

"We have used Ayer's Cherry Pectoral in our family for years. Once when our boy had a severe attack of croup, we thought that he would die. But we broke up the attack by using Ayer's Cherry Pectoral."
